E-Snake EIVA Portable outdoor lamp IP65 with 3 lights

Finish: White

Light bulb: With bulb

Description

Spring and summer are finally at the door, as your family and friends will soon be when you can finally go back to hosting outdoor dinners and other parties and gatherings. Of course alone time is also sacred, so great outdoor illumination can help you snuggle up on your patio with your dog and a good book. This lamp can also be moved at your pleasing, based on the your moods and wants.

This lamp was constructed with lamp holder and joints from the EIVA system, specifically designed by Creative-Cables for outdoor use. All components have an IP65 protection degree, are water and rain resistant, and come with a neoprene cable with textile covering and a Schuko plug for outdoor use. From the terrace to the patio, from the wooded area near your mountain cabin to the trailer on the beach: go where your heart takes you.

Please note: the IP65 protection degree is only guaranteed with A60, ST64, G95 and G125 shaped lightbulbs (constantly updating) and the EIVA lamp holder was exclusively designed to hold glass LED lightbulbs.

Patented by Creative-Cables, these lamps are designed and assembled in Italy. They are tested and CE certified from independent facilities based on rigorous norms.
