Spostaluce Lamp adjustable metal Joint with two-pin plug

Finish: White

Light bulb: With bulb

Description

Installing ceiling and wall lamps has never been easier, even in places that don't have sockets or light sources.

The Spostaluce with adjustable metal Joint allows you to swiftly alter your home illumination: the E27 lamp holder can tilt to 90° and rotate to 315° making it possible to shed light on specific areas and spots of your home.

With this solution you will be able to create original and functional light sources through the preexisting electrical system. All you will need to do is connect the plug from the Spostaluce lamp to the closest socket and attach the lamp to the wall or ceiling of your room. Quick and easy!
