Posaluce Bumped Wooden Table Lamp with two-pin plug

Finish: Neutral - RN06

Interruttore / Dimmer: Switch

## Description

Posaluce is a very versatile wooden table lamp: you can use it to illuminate your nightstand, your desk or you can use it to have an extra light in that cozy corner of your living room.

The irregular shaped LED Globe Bumped lightbulb has an original and elegant touch to it, and it highlights the shades of the Posaluce wooden finish. Choose between the two wooden versions of Posaluce available, with a golden or smoky lightbulb, and illuminate every room. Let it lighten up your mood, whether it be in your office or your bedroom.

And if, when the office is empty, you still need to go through a few documents, just lower the light intensity: You can purchase Posaluce with dimmer!
