## Alzaluce Globo Metal Table Lamp with two-pin plug

Finish: Black

Interruttore / Dimmer: Switch

### Description

Alzaluce is a very versatile metal table lamp: you can use it to illuminate your nightstand, your desk or you can use it to have an extra light in that cozy corner of your living room.

Thanks to the curved spiral filament from the lightbulb, the metal Alzaluce emanates a warm light. Choose your favourite finishes out of the 3 available (or, even better, all 3!), connect the cable to the plug and... create unique light patterns on your walls!

You can purchase the metal Alzaluce with dimmer to regulate the light intensity based on your needs. Easy, no?
